

Post-APS Error Magnetic Field Workshop
Date: 10/31 (PM) - 11/01/2003
Place: Hyatt Hotel, Albuquerque, NM
2nd Announcement: Call for Papers and Participation

Dear Colleague

As you may know, in support of the DIII-D 2003 experimental campaign physics objectives, a DIII-D Error Field (EF) Task Force has been established this year to develop an understanding of the non-axisymmetric aspects of the MHD equilibria. To facilitate the communication as well as to provide a forum for exchanging ideas on this topic of error field in tokamaks in general, we are planning to have an Error Magnetic Field Workshop on Friday 10/31 PM and Saturday 11/1 immediately following the APS/DPP meeting in Albuquerque.

We invite and welcome your participation. Please forward this announcement to other colleagues who may be interested.

Date 10/31/2003 (Friday) Starting at 1:00 PM
11/01/2003 (Saturday) Ending by 3:30 PM

Discussion Topics

1. Observation/Correction of Error Field on Equilibrium/Stability
2. Plasma Response to External Non-Axisymmetric Field
3. 3-D Equilibrium and Modeling Tools
4. Analysis of the Impact of Non-Axisymmetric Fields on Plasma

Workshop Format

The workshop will consist of invited and contributed talks (30 - 40 mins) on 10/31 (PM) and 11/1 (AM) plus a Discussion/Summary Session on 11/1 afternoon

Please indicate via return email to Lao@fusion.gat.com by August 15 whether you plan to attend the EF Workshop and/or giving a presentation
