

# Plasma Physics and Controlled Fusion

**Deadline 30 November 2013**

**[iopscience.org/ppcf](http://iopscience.org/ppcf)**

## Call for papers

**Special issue featuring papers from the 18th Workshop on MHD Stability Control, addressing Steady State Burning Plasmas, 18–20 November 2013**

### Your invitation to submit

*Plasma Physics and Controlled Fusion* is delighted to announce that it will be publishing a selection of papers from the 18th Workshop on MHD Stability Control, to be published in mid-2014. **Invited and Contributed Speakers are encouraged to submit.**

Regular research papers in *Plasma Physics and Controlled Fusion* can be up to 14 pages (at approx. 600 words per page) in length, including space for figures, graphs and tables (figures are equivalent to about 150 words each). The special issue will be published as a part issue of the journal and each corresponding author will receive a complimentary copy. We encourage colour figures and multimedia clips for the online version of the special issue, for which there is no charge. As with our regular submissions there will be no page charges.

You are invited to submit your article by **30 November 2013**. Submissions received after this date will be considered for the journal but may not be included in the special issue.

All submitted articles must fit within the scope of PPCF and will be fully refereed to the journal's usual high standards. The issue will be widely promoted to the plasma-physics community, ensuring that your work receives maximum visibility. As a matter of exception, the special issue will be available free of charge on the journal website for the first 90 days of publication to increase the readership and impact of the issue.

### Guest editor

- **Professor D Maurer, Auburn University**

### How to submit your paper

- Use our submission facility at **[www.iop.org/journals/authorsubs](http://www.iop.org/journals/authorsubs)**
- E-mail files as attachments to **[ppcf@iop.org](mailto:ppcf@iop.org)**

All submissions should be clearly marked 'MHD Stability Control Workshop 2013'.

Detailed information about how to submit an article for publication in the journal can be found on our website, at **[www.iop.org/journals/authorsubs](http://www.iop.org/journals/authorsubs)**.

### About *Plasma Physics and Controlled Fusion*

Published every month, *Plasma Physics and Controlled Fusion* covers all aspects of the physics of hot, highly ionized plasmas. This includes results of current experimental and theoretical research on all aspects of the physics of high-temperature plasmas and of controlled nuclear fusion, including the basic phenomena in highly ionized gases in the laboratory, in the ionosphere and in space, in magnetic-confinement and inertial-confinement fusion, as well as related diagnostic methods.

### Further information

For further information, or to request a free sample of the journal, visit **[www.iopscience.org/ppcf](http://www.iopscience.org/ppcf)** or e-mail the *Plasma Physics and Controlled Fusion* publishing team at **[ppcf@iop.org](mailto:ppcf@iop.org)**.
